

Loftlogic is a professional building firm that provides the highest service and quality standards in design, construction and project management for your loft or home extension.

A loft extension is a cost-effective way of enhancing your lifestyle and increasing the value of your property, whether it's an extra bedroom and en-suite, a bathroom, a home study, a nursery or playroom.

Our helpful and friendly team put you at the centre of the design and build process and make your complete satisfaction our number one objective.

5 Top reasons to choose Loftlogic for your loft conversion or home extension:

1. It's all one cost - there are no hidden extras
2. We are on average up to 50% quicker than our rivals but without compromising on any of the quality
3. We provide a free initial 30 minute consultation on the best loft for your needs
4. We offer accurate advice on building permission and building regulations
5. We submit the structural calculations and specifications on your behalf to your Local Authority for approval
